SUBJECT INDEX

Australia, *see* sorghum.

Bananas, fertilizer experiments in Israeli plantations, 311–18.
Browse plants, studies on, in Ghana: chemical composition, 114–24; digestibility of *Griffonia Simplicifolia*, 125–30; of *Baphia nitida*, 274–8; browse/grass ingestion ratios, 180–90.
Bush-control studies in drier areas of Kenya, preliminary work with Holt machines, 18–24.

Cacao: micro-nutrient deficiency, in Ghana, 42–50; establishment under different soil-moisture régimes, 249–56.
Cattle: pasture intake and digestibility studies, 60–64; domestic, origin of, in Africa, 97–113; and sheep, relationship between growth and carcass quality, 191–204; factors affecting birth weights of Kenana calves, in Sudan, 307–10; *see also* browse plants.
Cocoa, *see* cacao.
Coconut experiments, statistical control of variability in, 166–74.
Coffee: Kenya, tillage study in, physical effect of contrasting tillage treatments, 31–34; Arabica, technical advances in the culture of, in Nyasaland, 35–41.

Diseases of plants, *see* cacao; sulphur deficiency.

Evaporating conditions, advective effects on, as hot dry air crosses irrigated lucerne, 263–73.

Gambia, *see* groundnuts.
Ghana, *see* browse plants; cacao.
Grasses: Giant Rhodes Grass, fertilizer responses of, in Northern Rhodesia, 76–83; grassland on fallows, natural regeneration of, in South Africa, 161–5; legume-grass pasture mixture, production and composition of, in Minnesota, 335–9.
Groundnuts: bunch-type, effects of planting density and manuring on, 136–40; in the Gambia, soil fertility and response to fertilizers of, 153–60; in Northern Nigeria, methods of applying superphosphate, 231–4; effect of fertilizers on uptake of nitrogen, phosphorus, and potassium, 235–40; in Northern Rhodesia, factors influencing yield and quality, 343–51.

India, *see* pigs; sugar cane.
Irrigation: -control experiments on dry-season crops in Nyasaland, 1–17; *see also* evaporating conditions, maize.
Israel, *see* bananas.

Kenya, *see* bush-control studies; cattle; coffee.
Kola, rooting of cuttings, 225–7.

Lucerne, *see* evaporating conditions.

Maize, irrigated, water requirements of, in Nyasaland, 141–52.
Manures and fertilizers, effect of, *see* bananas; grasses; groundnuts; rice; soya beans; sugar cane.

Nigeria, *see* groundnuts; kola; rice; soils; soya-beans.
Northern Rhodesia, *see* grasses; groundnuts.
Nyasaland, *see* coffee; irrigation; maize.

Oats, effects of seed source on yield and maturity of, in Scotland, 319–24.
Olives, soil and tissue tests for predicting yields of, in Turkey, 84–91.

Pigs, effect of high-level copper supplementation in the ration of, 331–4.

Rice: effect of fertilizers and soil cover on submerged pregerminated seeds, 92–96; effect of split application of ammonium sulphate on growth and yield, 175–8; effect of levels of potassium and nitrogen supply on growth of an upland variety, 228–30; paddy, raw and parboiled, moisture changes, effect on milling quality, shade drying, 303–6.

Sesame, improvement for mechanized production, in Sudan, 219–24.
Sheep: effect of shelter and tallow dressing of fleece on fattening Scottish Blackface lambs, 51–54; trial of variant of Bert Kelly method for production of 'teaser rams', 55–59; air flow and temperature at grazing-sheep heights, 131–5; and cattle, relation between growth and carcass quality, 191–204.
Soils: fertility investigations in middle belt of Nigeria, 290–302; *see also* coffee; groundnuts; sugar cane; sulphur deficiency.
Sorghum, improvement for mechanized production, in Sudan, 211–18; sweet, influence of height of cutting on yield, nitrogen content, and ensilage, 325–30.
South Africa, *see* grasses.
Soya beans, fertilizer trials with, in Northern Nigeria, 257–62.
Sudan, *see* cattle; evaporating conditions; sesame; sorghum.
Sugar cane, effect of long-term application of nitrogen on yield of, 205–10.
Sulphur deficiency, incidence in Africa, 241–8.

Sunflowers, pollination requirements of, 340–2.
Sweet potatoes: improvement of storage by cultural and chemical means, 65–75; methods and results of selection, 279–89.

Turkey, *see* olives.

Uniformity trial data, analysis of, on electronic computer, 25–30.
United Kingdom, *see* oats; sheep.
United States, *see* grasses.

West Indies, *see* sweet potatoes.

The EMPIRE JOURNAL of EXPERIMENTAL AGRICULTURE

VOLUME XXXII

OXFORD
AT THE CLARENDON PRESS
1964

EDITORIAL BOARD

SIR E. J. RUSSELL, Woodstock House, Woodstock, Oxfordshire (*President*).

DR. E. E. CHEESMAN, Agricultural Research Council, 15 Regent Street, London, S.W. 1.

SIR J. B. HUTCHINSON, School of Agriculture, Cambridge.

SIR G. W. NYE, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W. 1.

DR. G. WATTS PADWICK, Plant Protection Ltd., Fernhurst, near Haslemere, Surrey.

D. RHIND, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W. 1.

(*The above constitute the Executive Committee*)

M. A. A. ANSARI, Pakistan Central Cotton Committee, New Queens Road, Karachi, 1.

PROF. R. G. BASKETT, National Institute for Research in Dairying, Shinfield, nr. Reading.

PROF. G. E. BLACKMAN, Dept. of Agriculture, Oxford.

S. DE BLANK, Plantations Group, Unilever Ltd., London, E.C.4.

PROF. M. F. CHANDRARATNA, Faculty of Agriculture, University of Ceylon, Peradeniya.

SIR G. F. CLAY, Malayan Rubber Fund, P.O. Box 2073, Kuala Lumpur, Malaya.

DR. D. P. CUTHBERTSON, Rowett Research Institute, Aberdeen.

DR. WILLIAM DAVIES, Grassland Research Institute, Hurley, nr. Maidenhead, Berks.

DR. H. P. DONALD, Animal Breeding Research Organization, Edinburgh 9.

DR. W. L. FIELDING, Gwebi Agricultural College, Salisbury, Federation of Rhodesia and Nyasaland.

DR. C. H. GOULDEN, Central Experimental Farm, Ottawa, Canada.

DR. W. M. HAMILTON, Dept. Scientific and Industrial Research, Wellington, C. 1, New Zealand.

SIR J. HAMMOND, School of Agriculture, Cambridge.

DR. P. S. HUDSON, Commonwealth Bureau of Plant Breeding and Genetics, Cambridge.

G. V. JACKS, Commonwealth Bureau of Soils, Harpenden, Herts.

J. LAMB, Agricultural Research Council, 15 Regent Street, London, S.W.1.

DR. A. H. LEWIS, Jealott's Hill Research Station, Bracknell, Berks.

DR. J. MELVILLE, Waite Agricultural Research Institute, Adelaide, S. Australia.

DR. B. P. PAL, Indian Agricultural Research Institute, New Delhi.

PROF. S. J. DU PLESSIS, Department of Agricultural Technical Services, Private Bag 116, Pretoria, Union of South Africa.

DR. E. W. RUSSELL, East African Agricultural and Forestry Research Organization, P.O. Box 21, Kikuyu, Kenya.

PROF. P. T. T. THOMAS, Welsh Plant Breeding Station, Aberystwyth.

DR. F. R. TUBBS, Horticultural Research Station, East Malling, Kent.

PROF. STEPHEN WATSON, Dept. of Agriculture, Edinburgh University.

DR. F. YATES, Rothamsted Experimental Station, Harpenden, Herts.

Secretary and General Editor

H. J. PAGE, Brackens, Church Lane, West Lavington, Midhurst, Sussex.
